PERSONAL SUMMARY

Aspiring Data Scientist and Machine Learning Engineer with hands-on experience building end-to-end ML applications in recommendation systems, churn prediction, and predictive analytics. Skilled in Python, Scikit-Learn, FastAPI, NLP, and model deployment, with a strong focus on solving real-world problems through data-driven solutions.

TECHNICAL SKILLS

Languages:	Python, C++, JavaScript
Machine Learning:	Scikit-Learn, Deep Learning, NLP, Feature Engineering, Model Evaluation
Data Analysis:	Pandas, NumPy
Visualization:	Matplotlib, Seaborn
Web & Backend:	HTML, CSS, JavaScript, FastAPI
Tools:	SQL, Git, Google Colab

PROJECTS

MovieFlix – AI-Powered Movie Recommendation System

[GitHub Link](#)

FastAPI, Scikit-Learn, NLP, JavaScript

- Built and deployed a content-based movie recommendation system using the TMDB 5000 dataset.
- Applied TF-IDF vectorization and cosine similarity to generate personalized recommendations.
- Implemented fuzzy search, trending movies, and detailed movie metadata views.

Telecom Customer Churn Prediction & Strategy Simulator

[GitHub Link](#)

LightGBM, Random Forest, Optuna, SHAP, Streamlit

- Developed a robust churn prediction solution using over 500K+ telecom customer records.
- Performed extensive EDA, structural feature engineering, model training, and hyperparameter optimization.
- Built an interactive Streamlit application for real-time prediction and strategic retention simulation.
- Integrated SHAP frameworks to supply clarify-focused, explainable AI-based model outputs.

Food Delivery Time Prediction System

[GitHub Link](#)

Scikit-Learn, Optuna, Pandas

- Built an optimized regression model to predict food delivery ETA utilizing traffic, weather, and delivery features.
- Evaluated multiple regression algorithms and systematically optimized hyperparameter performance using Optuna.
- Achieved an ~82% R^2 score alongside a highly precise ~5-minute Mean Absolute Error (MAE).

EDUCATION

B.Tech in Computer Science & Engineering

Expected Graduation: 2027

Jaypee University

LEADERSHIP & EXTRA-CURRICULARS

Joint Secretary

Coding Hub

Organized high-impact coding events, practical workshops, and technical activities for university students.
